Chairman & Owner of Renault, Ireland, visits Pres

Bill Cullen, one of Ireland's most successful entrepreneurs visited our school on Friday March 2nd in order to meet our senior students and motivate them for success. He made a dramatic arrival by helicopter in the primary schoolyard and then set about telling the assembled group about his life. He progressed from selling apples on the streets of Dublin to owning a company with an annual turnover of over \$350 million.

What inspired him to strive for success and to motivate himself to achieve? This was the subject of his talk to our students. He talked about ambition, about being open to positive influences on his life; his family influences but overall his own burning desire to have all the things that he did not have in his early life. His message to our students is that success is out there waiting for all of us but we have to go after it!

His talk was most inspiring for students and staff alike! Christina Quinn who is running in a Marathon for Temple Street Hospital invited Bill to sponsor her and he generously offered her a €250 cheque. To finish off his talk 4 students were chosen and were taken for a helicopter trip over Kinvara and Moycullen. All in all it was a memorable visit!
