Developing Young Enterprise Mini-Company Programme

This programme aims to educate students in the area of enterprise and business. Students set up and run their own company, primarily under the guidance of the business volunteer. This ensures that a bridge is being built between the classroom and the world of work in a real sense.

Key skills developed include:

- Communication
- Problem solving
- Team building
- Basic financial accounting
- Time management
- Planning
- Team work
- Public speaking
- I.T. skills, and Use of Powerpoint
- Video & Film Editing Skills
- Web Design

Back & Spine Health

Pictured at the launch of Presentation Secondary Mini Co Project for 2009/2010 are

Wesley O'Duinn from American Power Conversion (APC) in Ballybrit, our Junior Achievement Business Volunteer with Seamus McGuinness, TY Co-ordinator & Paddy Murphy, Deputy Principal

Presentation Parents' Council organized a very practical and informative session for our students on Back Health and posture and how to avoid strain on muscles and joints.

This was a very timely and health promoting session.

Trish, a Chartered Physiotherapist gave demonstrations on the correct methods of lifting, wearing and load weights of school bags and answered many questions from students on this issue.

Many thanks to the Parents Council for organizing and funding this session.

Our pic shows Niamh Hartnett, Principal, Cliona Ni Neill, Physio Trish and Sandra Wall
